Global Plasma Solutions

\$100 OFF

Global Plasma Solutions' patent pending technology produces positive and negative ions ( Cold Plasma ) in the air stream which treats the inside of the air conditioning equipment, duct work and then enters and purifies the entire home. It effectively eliminates bacteria, virus, mold and volatile organic compounds by working directly on the air contained in the entire zone and duct.

In addition, odors are controlled such as ammonia, formaldehyde, cooking odors, bathroom odors, musty & mildew odors as well as other odors produced by the occupants and building furnishings and processes.

\$500 OFF

Whether you have a single uncomfortable room, you're renovating your entire house, or you're building a home from scratch, Mitsubishi Electric has a Zoned Comfort Solution™ that fits your unique needs. Because our systems focus on individual living spaces rather than treating every room the same, it's more customizable, more energy efficient and easier to install. Call today to receive \$500 off a Mitsubishi multi-zone system.

The **Watco Water Conditioning System** utilizes a metered control with digital logics which allows forecasting of water consumption based on actual usage. The metered system optimizes the water softener for maximum water conservation.

The Six cycle Pro Series valve is motor driven, there are no solenoids or diaphragms to stick or hang up. This is the most reliable system for consistent performance.

In the event of power failure, correct time and water usage will continue to be monitored by a replaceable battery and resets automatically when power is restored.
